Document automation - Internship

Equity Markets & Commodities (EMC) is part of the Investment Banking Segment - Corporates & Markets. With more than 20 years of experience, it is a top German Equity and Commodities house with a leading position in Europe at providing and market making equity, ETF's, funds, derivatives and securitised products. Thanks to its client centric model, structuring, trading and sales specialists worldwide develop and service a wide range of products for institutional, retail and corporate clients.

Your role

We have an exciting opportunity for a motivated and fast learning Student/ Graduate within the Equity, Markets and Commodities department of Commerzbank. Your position will play a key part in the automation and Front to back processing of structured products. During your internship you will help the Exotics Equity trading desk ((EVF) trading desk to automate their document generation by producing logical and scalable document templates in an "in house built platform". In this process you will have exposure to various departments and will need to establish and maintain an efficient working relationship with them (among others: trading, Sales, IT developers, Legal, Back office, etc.).

Profile:

- Very good writing skills
- Fast learning and very logical thinking
- Should be able to work in a fast passed environment
- Strong organisational skills
- Basic understanding of Equity derivate products
- Good communication skills
